

Silicon Valley Code Camp for Kids 2015

Software Requirement

All in a flap – how to create your own flappy bird clone with TouchDevelop

Instructor: Christine Matheney, Microsoft

Prior to coming: Please sign up for a Microsoft account with your child and provide them the username and password. This will make it easy for them to save their work and share it with you when they get home. <http://signup.live.com>

Software:

A web browser on your favorite device (tablet or computer is recommended)

Please make sure you can access <http://appstudio.windows.com/en-us>

Hardware:

Any device that can connect to the internet. Tablets and computers are recommended, but a smartphone will work if necessary.

NOTE: This workshop is best for students in fourth grade and above. If you're a bit younger, you are still welcome to join in the fun – but we recommend walking through this tutorial before attending:
